

Virtual Dissection

Warm Up

**Make sure your name is on your activity sheet from last class and turn it in.

Answer the following questions in your notebook

1. How do the respiratory and circulatory systems work together?
2. List the pathway food is digested.

Do a quick research of the immune system and list 5 important things to know.

Literacy

Look at the title of the article “*Zaps to spinal cord help paralyzed people walk*”

Based off this title, make a list of words you think will be important or related to the article.

Virtual dissection

Go to Google Classroom and click the link to the virtual dissection lab.
