

Dissection Day 2 & Review Day

Body Systems

Warm up

Come in quietly and review the lab sheet with the procedures.

If you were a part of the lab last class, you may get a pair of goggles, an apron, and a pair of gloves.

Clean up

When you finish your dissection, or when I tell you it is time to clean up:

- One person from your group put the frog and its parts in the ziploc bag, seal it and throw it in the trash.
- Another person in your group should go to the back counter and sanitize the dissection tools with the rubbing alcohol
- A third member of your group should get a disinfectant wipe from the front desk and wipe down the table
- The last person should wipe down the tray with a disinfectant wipe.

Review

Get out your notes on body systems for a review game of pictionary.

VOCABULARY

-Specialized cell	-Tissue	-Organ	-Organ system	-Organism	-Digestive system
-Circulatory system	-Nervous system	-Endocrine system	-Skeletal system	-Muscular system	
-Reproductive system	-Urinary system	-Integumentary system	-Homeostasis	-Neuron	
-Spinal cord	-Brain	-Skull	-Ribs	-Femur	
-Contract	-Oxygen	-Carbon dioxide	-Heart	-Veins	
-Arteries	-Lungs	-Capillaries	-Mechanical digestion		
-Autonomic nervous system	-Chemical digestion	-Mouth	-Esophagus	-Stomach	
-Small intestine	-Large intestine	-Red blood cells	-White blood cells		
-Sensory neurons	-Smooth muscle	-Motor neurons	-Skeletal muscle	-Cardiac muscle
